AMS 700 LGX Components

1 AMS 700 LGX

Inflatable cylinders — two cylinders placed inside the penis fill with fluid when an erection is required.

2 Pump
EASILY YOU CAN INFLATE AND DEFLATE

A concealed pump in the scrotum controls inflation and deflation.

SCROTAL PUMP, SHOWN IN HAND

3 Reservoir
Holds the fluid used to inflate the cylinders; positioned internally in the pelvic area. The complete system stays inside the body.
